

CHILD STARVED TO DEATH IN THE WOODS.

Special Dispatch to the Intelligencer. BELINGTON, W. Va., Dec. 27 .- Some weeks ago, Willie Courtney, aged eight years, disappeared from the home of Benjamin Ogblesby, who lives near here, and although a diligent search was made by neighbors, no trace of the child was found, until last night, when a party of hunters found his body on Laurel Hill moun-The fiesh was caten off the face, and the eye-balls torn from their sockets, evidently the work of wild animals. It is alleged that the child was subjected to very cruel treatment by Ogglesby, who had taken him from the poor house of Randolph county

GOT HER DIVORCE

Did Mrs. Margaret Morris Beck From James Lowry Beck.

The Staunton (Va.) News gives the final determination of the Beck divorce suit, which is of interest to many Wheeling people. Says the News:

Judge Grattan, of the hustings court, on yesterday heard and determined the chancery cause of Margaret Morris Beck against James Lowrey Beck for divorce and custody of the only child of the marriage. The counsel for the plaintiff were Messrs. Ranson & Ranson and Patrick & Gordon, and for the defendant Mesers. Sipe & Harris, Elder & Elder, and Curry & Glenn. Mr. Caldwell was also counsel for him at Wheeling as had been M. F. Dryden, who recently met a violent death in that city.

This suit was brought in August last and has been fought at all points. Af-ter motion and argument for further continuance on behalf of the defendant who is at present in a sanitarium in the

state of Washington, this was over ruled and the case came up upon its merits on the testimony, which was very voluminous.

The decision of the court as briefly announced and entered in the decree is that the evidence sustains the statements of the bill and establishes the grounds for a divorce a mensa et thoro, which is awarded to the plaintiff, perpetually separating the parties, with the privilege of her resuming her maiden name, should she so desire. All marital rights of either in property of the other are terminated. To the plaintiff is committed the sole charge, control and custody of the only child, a daughter of eight years, and the injunction pre-viously obtained restraining the defendant from interfering with such control and custody is made perpetual.

The high character and prominence socially and in a business way, of the parties, who are widely and favorably known here, have excited interest in this case, and that it has been so promptly disposed of, and with so little of the bitterness usually attending such controversies, will doubtless be a relief to all concerned, including their many friends in this community. The comment by one of the defendant's counsel upon the unexceptionable conduct and bearing of the plaintiff was gracefully made and creditable to his gentlemanly

Metals.

NEW YORK—Though the London market for tin advanced about six pounds over last Friday, it was still somewhat of a disappointment to the local metal trade in view of the rise here yesterday. In fact the London market closed weak and tending downward at 123 pounds 2s 6d. The local market in consequence was easy and nominally quoted at 127.50, against 127.00223 00, yesterday's close, with little business done at those figures. Copper advanced one pound since Friday, on good buying orders at London, but falled to influence the local situation, prices remaining nominally unchanged at 117.00 for lake copper and \$16.61% for casting and electrolytic. Lead ruled dull and nominally quoted at 13.71%, while at London prices showed a rise of 2s 6d to £16.5s on light speculative movement. Speiter was very dull, both here and abroad, closing prices were on the basis of 34 124.09 17% and £18 10s, respectively. Domestic fron markets continue inactive and nominally unchanged. Pig iron warrants 39 50@16.50; nouthern foundry \$14.60@16.75.

Dry Goods.

NEW YORK—General business again has been on a quict scale. The demand for staple cottons, brown bleached and colored, has been for limited quantities only, sellers meet it readily, but without change in price. Prints are selling quietly, while ginghams are slow, and prices unchanged. Print cloths continue inactive at previous prices. Fancy cotton dress goods also inactive. Cotton linings are quiet throughout. Slike show a stendler tone with a slight improvement in business.

Government bonds strong. State bonds inactive. Railroad bonds strong.

The market digested an enormous amount of stocks on profit taking today. These heavy offerings were not without effect on prices, and, in fact, there was a period of very general reaction, but like yesterday, the market again demonstrated its marvellous recuperative power and the speculative enthusiasm was shifted into new quarters where the buying was resumed with unabated confidence. In a large part of the general list the movement of prices was not wide at any time and the large volume of business was ac-complished without either making an inroad on the market value or increasing it. In other stocks the day's price range was very wide, while the net change is quite unimportant. In this list were stocks which yielded sharply to the profit taking movement and then recovered strongly in sympathy with the strength which developed at new points. The grangers and Pacifics are examples. The distinguishing feature of the day's tracing was the development of aggressive strength in a large group of low priced stocks, both in the railroad and miscellaneous department. The advance in Denver and Rio Grande common gave the cue for this movement. The strength in the Rio Grande stock and the large amount of absorption gave rise to the conjecture that a process had begun of trans-fusion of interest between railroad companies in that region looking to a settlement of obstinate rate problems similar to the exchange of holdings which has occurred between railroads

roads, but among low priced stocks scattered all through the list. After Denver & Rio Grande had risen there were successive responses in Iowa Central, Norfolk & Western, Fort Worth and Rio Grande, the Wabash stocks, United States Leather, Hocking Coal, North American, Reading second preferred, Mexican Central, Ann Arbon and Ontario & Western of from 1 to 3%. This diversion of speculative activity from high priced dividend paying stocks to low priced stocks is a very usual accompaniment of a long sustained bull movement on the theory that the low priced stocks are entitled to a rise to adjust their values to the dividend payers. At this time there is the additional argument, which gains force from a lingering fear of a possibility of a money squeeze incident to the early settlement, that the low priced stocks are safer to hold on margin, as the margin represents in some cases nearly the full value of the stock. In addition to these features of strength in to-day's market there was an opening rush to buy People's Gas, which made the price 110 or 3% above last night. Although it fell back nearly three points it was well sustained at the lower level and closed with a net gain of 1% on the strength of the reports of Vanderbilt acquirement of the stock. Sugar was very feverish over a wide range, rallying very strongly after an early decline and closing with a net gain of 314. St. Paul moved up in the late dealings pretty near to 141, coming within less than a point of Burlington, Uneasiness over the money market was allayed by the abundant funds offering on call which carried the rate down to influential factor in rallying the market and the bears who sold freely in the early trading covered again on large scale before the close.

Business in bonds continued large and the market gained in strength as the day progressed. Total sales par value

Wheat Steady; Corn Firm; Oats Higher; Provisions Dull.

CHICAGO—Wheat was quiet to-day, tween \$6 20 and \$6 25, with the close sut steady, May closing a snade lower. 21/20 lower at \$6 22%. but steady, May closing a snade lower. May corn closed %c higher, Onts %c up and provisions 24c lower.

Indifference at Liverpool and a decline at Paris equal to 11/2 caused liberal offerings of wheat at the start, May opening %c under yesterday at 72%@72%c. The market fluctuated narrowly for hours, sustained by a small decrease in the world's visible, light northwest receipts and by the strength of corn. Towards the end shorts covered and as offerings were light May railled to 72%@72%c, and closed steady and a shade lower at 72%c. The fact that the government report was due after the close caused traders to play even. Exporters reported fourteen loads taken. Seaboard clearances in even. Exporters reported fourteen londs taken. Seaboard clearances in wheat and flour were equal to 198,000 bushels. Primary receipts aggregated 729,000, compared with 451,000 bushels last year. Minneapolis and Duluth reported 293 cars, against 324 last week and 279 a year ago. Local receipts were 150 cars, one of contract grade. Corn was quiet, but firm, helped by the receipts, 770 cars, against an estimate of \$40 cars by smaller western offerings and by a good shipping demand. It was believed that the counter movement had reached its maximum and would wane from now on. May sold between \$50\cmax and \$50\cmax and \$60\cmax and \$60\cmax

Estimated receipts to-morrow: Wheat, 105 cars; corn, 425 cars; oats, 135 cars; hogs, 28,000 head.
